

Swinging

By David Pearce

Artist Statement:

Several years ago, I saw a suspended sculpture at the Bower Center in Bedford. This unlocked my thought process on hanging sculpture. In the past, I have had two suspended sculptures at "Simply Elemental," so it was natural to try to reclaim my favorite tree limb at the Hahn Garden and create another piece. I like to work in what is called "Direct Metal Sculpture" using copper tubing and wire, copper sheet, brass, and a torch to create these objects.
