

Stained Glass

Miranda Robison

Medium: acrylic on glass

Artist's statement: I wanted to relive memories at my Nana's house looking at the Appalachian Mountains from her guest bedroom window, so I reimagined that view again this time captured in what would look like stained glass.

Bio: I'm a psychology student at Virginia Tech with hopes to go to grad school for

Occupational Therapy. Through occupational therapy I hope to use art and creative techniques to help those who have difficulties and disabilities to gain confidence and independence in their lives through art and other creative means.
